BIOGRAPHY

Swiss electronic music producer and multi-instrumentalist Klawanter takes listeners on a journey of self through music. Following the release of his 2019 debut album, "Alles Auf Anfang" featuring 7-tracks, Klawanter racked up performances at the SPH Music Masters and went on to release a series of releases in 2021 such as 'The Way to No Man's Land' and, 'Blutrot', featuring his friends and artist, Jay Phonic.

Often incorporating dark and gloomy sounds into his songs Klawanter ups the vibe from tranquillity, to movement on and off the dance floor, and bridges a connection with the audience as his songs 'Unrat' and 'Waldlauscher' effortlessly simmer to create a nostalgic atmosphere. Influenced by techno, indie, rock, classical and metal among others, as well as artists like Anders Trentemøller, and Nils Frahm, Klawanter hopes to inspire others as he completes his highly anticipated EP entitled, "Cut" set to be released on February 7th, 2023.
